

# NEW CROSSWALK AND TRAFFIC SIGNAL ACTIVATION

## West Way at World Way South (Arrivals)

Effective Saturday, May 18, 2024 at 9AM

### ACTIVITY

Civil construction for the Automated People Mover includes the installation of a long crosswalk and traffic signal at West Way and World Way South (Arrivals Level), and removal of two adjacent long crosswalks and respective traffic signals to the east and west of the new location.

The new crosswalk and traffic signal are scheduled to be complete and activated on Saturday, May 18 at 9AM.

Old crosswalk striping to the east at Parking Structure 5 will be removed prior to this opening, as well as the deactivation and removal of the traffic signal. The long crosswalk and signal to the west at the southeast corner of Parking Structure 4 has already been removed.

Note: All "short crosswalk" sections from the Terminals to the Center Median Curbs remain as-is and are not impacted by this work.
